Santa Cruz County Workforce Development Youth Program Summary

Welcome to the Santa Cruz County Workforce Development Youth Program (SCC WDYP). The SCC WDYP is a federally funded program under Title I of the Workforce Innovation & Opportunity Act of 2014, funded through the U.S. Department of Labor, the State of Arizona Department of Economic Security, and the Santa Cruz County Board of Supervisors. As a participant in this program, your organization will play a key role in helping the youth participants have a productive experience. The Youth Program allows participants the opportunity to develop working skills, increase academic achievement, set career goals, earn wages, and learn about the workplace.

The Santa Cruz County Workforce Development Youth program is an important avenue to career development. These jobs help the youth in our community develop a sense of responsibility and provide them with valuable work experience. Participants may work in a variety of work settings across Santa Cruz County where they learn basic work skills including maintaining regular attendance, punctuality, exhibiting appropriate behavior, demonstrating good interpersonal skills, completing assigned tasks effectively, following proper directions, and providing service to the community.

While both the businesses and program participants benefit from the work experience program, the main goal is for the participant to experience the feeling that comes from a job well done. Taking pride in the work they do on the job, no matter how simple can help build their confidence for current and future ventures.

Employers and the Santa Cruz County Workforce Development office are partners in providing work experience for the Santa Cruz County Youth Program students.

Thank you for participating in the Santa Cruz County Workforce Development Youth Program.
